Was John Wilkes Booth a man or a cat?

Oh! "give us arrest," cried the defaulting and embezzling post-office officials in Washington. And they got it.

We raise our chapeau to the Greensboro *Telegram* for the pleasant words with which it greets this paragrapher.

A *modus vivendi* has been established between Hanna and Foraker; but each reserves the right to resume business at the old stand.

Recently we enclosed a quarter-dollar in a letter to a firm in New York. It never reached its destination. It had to pass through Washington.

A correspondent asks for the origin of the love-sick term, "My Junecie." We thought everybody knew that the original "Junecie" was a June bride.

Senator Hanna was not unmindful of the warning: "Look out for the locomotive when the bell rings." For a rheumatic he was uncommonly spry in getting off the track.

Charlotte, having grown weary of the petrified man, is now in ecstacies over a petrified rat sent the *Observer* by the "head devil" of the Hendersonville *Hustler*. There's nothing like being metropolitan.

The lynching of a negro schoo teacher at Belleville, Ill., for murdering a county school superintendent who had refused to renew his teaching certificate, shows that a much less offence than the nameless crime is considered a sufficient justification for mob law in the North.

The Raleigh *Post* says: "The recent rains will bring many thousands of dollars to North Carolina farmers." This may be so; but we advise the farmers to keep right on with their ploughing. Frogs and fishes sometimes add to the gaiety of rains; but the rain-dollars—well, we haven't "saw" any of 'em yet.

Referring to the strenuous Teddy, the Washington *Post* says: "His ways are as unlike the ways of any of his predecessors as the regenerated White House, with its peculiar attachments, is unlike the White House of other days." Very true. For example, no other President has spent sixty-five consecutive days in an electioneering tour.

LOCAL DOTS.

— Bladen Street M. E. Sunday school excursion is advertised in another column to-day.

— Schooner "Oliver Barrett" has arrived from Boston for cargo from the Chadbourn Lumber Co.

— The wedding story from Maxton must be declined unless we are given the name of the writer. This is an inflexible rule of the STAR.

— General Passenger Agent W. J. Craig, of the Atlantic Coast Line, states that there is no delay on that system on account of high water.

— Schooners "Nellie W. Howlett" and "Carrie A. Buckman," hence for New York with lumber cargoes, passed out at Southport at 11 A. M. yesterday.

— Rev. Euclid McWhorter, of Southport, will deliver an address to the Epworth League of Market Street M. E. church to-night at 8 o'clock. The public is invited.

— The residence of DuBrutz Cutlar, Esq., on Wrightsville Sound, was sold yesterday under foreclosure proceedings, for $3,000. Mr. H. L. Fennell was the purchaser.

— The County Board of Education, Chairman W. H. Sprunt, Superintendent W. Catlett and County Treasurer H. McL. Green in attendance, was in session yesterday afternoon, but only routine business was transacted.

— Young Mr. Thos. C. Ellers, who has begun his training for the Methodist ministry, preached to a large congregation at Bladen Street M. E. church Sunday night. He gave evidence of much ability, which he hopes to develop by a course at Trinity College next Fall.

— The tug "Alexander Jones," in tow of the fishing steamer "Atlantic," came up Sunday afternoon for repairs to the air pump of her engines. The tug expects to proceed early this week to Philadelphia, towing the disabled schooner "Gertrude L. Trundy," which has been at Southport for some time.

— A young mulatto fell from the second floor of Maria Hall, Eighth and Princess streets, a distance of about 20 feet, late last night and was severely, but not seriously injured. He was sent to his home and a physician summoned. A "festibule" was in progress and the negro was somewhat intoxicated.

SOUTH CAROLINA FLOOD SUFFERERS.

Their Condition Appeals to Sympathies of Carolinians—Raise Fund Here.

Great sympathy was expressed here Sunday for the people in the flood-ridden district of South Carolina, and in not a few of the churches reference to the calamity was made in sermon and prayer. At the meeting of the Protestant Pastor's Association yesterday morning in the Y. M. C. A., great sympathy was also expressed, and by resolutions, printed in another column, it was decided to have the matter again brought to the attention of the congregations next Sunday with special prayers for the sufferers.

President J. A. Taylor, of the Chamber of Commerce, requests the STAR to say that Secretary Kyle will be glad to receipt for and forward any relief subscriptions that may be sent to the Chamber. Governor Heyward, of South Carolina, has issued an appeal for aid, and large funds are already being made up in Columbia, Charlotte, Spartanburg and other cities.

At the Casino Last Night.

The largest audience yet in attendance was at the Casino on the Beach last night. Unfortunately, James and Davis, the headliners for this week, did not arrive in time for the performance. They are, however, now in the city and amusement lovers can to-night and the balance of the week be assured of a first class entertainment. Little Dorothy made a big hit last night in the song, "The Meaning of U. S. A." with electrical effects, making one of the prettiest songs upon the stage to-day. "The Harts" in catchy songs and dances are now prime favorites and never fail to please.

Bankers' Association Reception.

The approaching convention of the State Bankers' Association offers a programme of unusual merit and the largest session in its history is anticipated. In announcing the programme an error was committed in the copy furnished to the press which stated that the reception on the evening of June 23rd, would be given by the Mayor. The reception is tendered by the Chamber of Commerce, and by invitation of the committee appointed by that body. The address of welcome will be delivered by Col. Waddell.

An Excursion to Raleigh.

Thomas H. Knight, the well known colored manager, has charge of an excursion that will be run by St. Shepherd's A. M. E. Zion church over the Coast Line to Raleigh and return, Monday, June 22d, leaving Wilmington at 6:30 A. M.; and returning, leave Raleigh at 12 midnight, same day. The fare is $1.50 the round trip. Separate cars for whites and colored.

THE COURT RECORD.

Seventeen Offenders Before the Mayor and Six Were Sent to County Roads.

IN MAGISTERIAL CIRCLES.

Several Cases Continued—Negro Who Was Slashed in Brooklyn Saturday Night — Prisoner Who Took Money from a Sailor.

Seventeen Saturday night and Sunday offenders faced Mayor Springer from the prisoners' bench in the municipal court yesterday. Six of the number went to the roads; two others had their cases continued, and the remaining contingent were fined or discharged as the evidence or conditions would permit.

The road recruits were: Tom Branch, white, drunk, 20 days; Dennis Nobles, white, vagrancy, 30 days; Amos Talley, colored, drunk and disorderly, 20 days; Charles Fisher, albino, disorderly conduct, 20 days; Ben Kell, colored, drunk and down, 20 days; Elijah Lacewell, colored, drunk and disorderly, 20 days.

Alex. McLaurin, a country darkey arrested by Policeman E. R. Chadwick for "expectorating" on the sidewalk, was allowed to go, owing to his ignorance of the law. Charley Wright, another country negro, suspicioned of having stolen a pair of new shoes he was displaying Saturday night, was also discharged.

James Smith, the negro slashed in the breast at Third and Brunswick streets Saturday night, was fined $5 for disorderly conduct. Amanda Norman and Rose Watson, both colored, charged with cutting Smith, had their cases continued through their counsel, Brooke G. Empie, Esq.

John Plummer Johnson, a negro man arrested Sunday afternoon, near Front and Grace streets, on a charge of the larceny of $10 from a white sailor named Herman Siever, also secured a continuance of his case until to-day. Siever had jumped on the negro and was pounding him good when the officer arrived and was fined $5 by the Mayor for the assault. A ten dollar bill was found in Johnson's cap when he was brought to the police station.

Israel Moore and Wm. Loftin, both colored, drunk and down, paid a fine of $5 and costs each and were discharged.

The convicts for the road were taken out to the stockade yesterday afternoon. Ben Keil upon the expiration of his term, will be held for Constable W. B. Savage who has another warrant for his arrest.

Yesterday afternoon Wiley Mazingo and Louis Yates, both white, were arrested for disorderly conduct and locked up for trial to-day.

Jim Marine, charged with assault and battery and disorderly conduct, was committed to jail by Justice Bornemann yesterday.

Abram Watson, the negro drayman charged with an assault upon another negro who mounted his vehicle to arrest John Wilkins, colored, who had stolen $2 from him by trick, was discharged in Justice Fowler's court yesterday, the evidence not admitting probable cause.

STATE BUILDING AND LOAN LEAGUE.

Meeting of Representatives from Carolina Associations at Wrightsville Beach.

In connection with the meeting of the State Bankers' Association at Wrightsville Beach, June 23 and 24, there will also be held a meeting of representatives of all building and loan associations of North Carolina for the purpose of effecting the organization of a State Building and Loan League along the lines mapped out in a circular sent out from Charlotte and published in these columns some time ago. The movement was inaugurated by the Building and Loan League of Charlotte and President S. Wittkowsky and Secretary E. L. Keesler, of that organization, have issued a call for the Wrightsville meeting, which will be held simultaneously with that of the bankers so that delegates may have the advantage of the low hotel and railroad rates and also because of the fact that many of the bankers in attendance upon their meeting may also represent building and loan associations in which they are interested in the various towns and cities of the State.

It was originally intended to hold the meeting in Charlotte in connection with the 20th of May celebration in that city, but plans had not sufficiently matured at the time and that meeting was abandoned. Circular letters are now being mailed to all associations in the State, aking each to send delegates, and as the movement is generally looked upon with favor by the leading associations, it is likely that the attendance will be large. The objects of such a State League are obvious and much good will likely result from an active, working organization.

Hanover Seaside Club Opening.

Hanover Seaside Club will hold its sixth annual opening at its handsome club house on Carolina Beach to-morrow, June 10th. A very attractive programme has been mapped out and the attendance is expected to be large. There will be a bowling contest for gentlemen in which the first prize will be a season ticket at the club and the second will be a bath suit. There will also be contests for the ladies in which suitable prizes will be offered. There will be four trips of the boat during the day and evening, leaving at 9 A. M., 2:45, 5:15 and 7:45 P. M., with last boat leaving the beach pier at 10:30 o'clock.

CAPE FEAR ACADEMY CLOSED.

Thirteenth Annual Session Concluded With Appropriate Exercises Yesterday. Certificate of Proficiency.

Cape Fear Academy, one of Wilmington's oldest and most successful private schools closed its, thirtieth annual session yesterday morning with appropriate exercises. The student body gathered in the Academy building, on Third street, and heard with much interest and pleasure a short address by the popular principal, Prof. Washington Catlett, who has had charge of the school for twenty-five years, after which certificates of proficiency were awarded to the following pupils, their names appearing in the order of their excellence:

Senior Class—Fenner Gaylord, Eloise A. Taylor, Virginia O. Powers, F. E. Hashagen, Jr.

Junior Class—Adrian B. Rhodes, Hal F. Boatwright, Harry W. Keen, Fred. D. Bear, Lionel J. Kahn, Fred K. Harper, Geo. C. Jackson, Bryan K. Newkirk, Jno. S. Armstrong, Jr., J. H. Durham, Jr.

Intermediate Class—Jas. J. Bergen, W. A. Wright, Emmet H. Bellamy, Herbert D. Chadwick, Willie Smith, Jas. H. Holmes, Robt. W. Strange.

Primary Class—W. LeRoy Pickett.

The following deserve especial mention for punctuality, deportment and regular attendance, qualities which are regarded by the principal as essential for scharlorship and for successful carrers as business men: H. W. Keen was never late, or absent and received only one demerit during the session, Fenner Gaylord, Virginia O. Powers, Eloise A. Taylor were never late, and received no demerits. Daisy Bell received no demerits. Fred D. Bear, H. F. Boatwright, Fred K. Harper and Adrian Rhodes were never late.

The year just closed by Cape Fear Academy has been one of the most highly successful in the history of the institution, both in point of attendance and thoroughness and diversity of instruction given. The Fall term opens about Sept. 15th.

THE KNIGHTS OF KHORASSAN.

Official Announcement to Votaries of Ceremonial at Wrightsville June 17th.

Handsomely printed pamphlets containing interesting information relative to the semi-annual ceremonial session of Suez Temple, No. 73, Dramatic Order, Knights of Khorassan, at Wrightsville Beach, June 17th., in connection with the Grand Lodge, Knights of Pythias, which will be in session at Wilmington the same time, were received in the city yesterday. The pamphlets bear the following unique announcement:

Votaries! On the 17th day of June, the Faithful are commanded to mount and journey toward the rising sun to the Oasis of Wilmington, where will be celebrated the great Feast of Summa—Havhoiim. There to do homage to your stately chief and his mighty guests, Imperial Prince Jno. H. Holmes and Imperial Secretary H. W. Belding, of St. Louis; and Imperial Kadi D. F. Summey, of Charlotte, N. C. Let every faithful votary of Suez Temple be present and reflect honor and credit upon the ceremonies. Verily, the great tiger's appetite is "bagging at the knees," and much tyro meat is needed to restore his mighty strength and good humor. Get out and hustle, and make the occassion promise much enjoyment. The night will be warm (for tyros) and the sands heated to a glow of delicious pleasure. Mokanna and his band (which will incidentially play a new arrangement of 'Life on the Ocean Wave') will form the caravan promptly at 8:30 P. M. for the grand march across Khorassan's desert. A delicious banquet will be served on the shore of Zem Zem to all votaries of the temple and surviving tyros,

"I am the tax collector.
"J. A. SOLOMONS, Secretary.
"And don't you forget it.
"DR CHAS. A. BLAND,
"Royal Vizier."

The Charlotte *Observer* says that 50 members of the Temple will attend the K. of P. grand lodge and the D. O. K. K. sessions. Imperial Prince John H. Holmes and Imperial Secretary H. W. Belding, of St. Louis, Mo., and Imperial Kadi D. F. Summey, of Cincinnati, O., who is a member of the Charlotte Temple, will arrive in Charlotte next Sunday and will be the guests of Suez Temple. They will hold a reception for the members of the Temple Monday morning, in the Central Hotel parlors, and in the afternoon they will be entertained by the officers of Suez Temple, who will give them a break ride, ending at the Country Club, where dinner will be served. These officers and the Charlotte D. O. K. Ks. will leave for Wrightsville Tuesday night.

WILL BUILD NEW HOUSE OF WORSHIP.

Bladen Street M. E. Church Working to That End—Fund Already Started.

The congregation of Bladen Street M. E. church has inaugurated a movement looking to the erection of a handsome new house of worship. Six persons have already subscribed $175 toward a building fund and the canvass for other amounts will be taken up this week.

The plan at present is to buy the lot adjoing the present site, on the west, and to move the old church on that property and to convert the same into Sunday schol class rooms, pastor's study, etc. It is proposed to build the new church large enough to seat 450 or 500 persons and to begin work upon the same as early as possible.

Under the pastorate of Rev. George B. Webster the congregation is steadly growing and enlarged accommodations are absolutely necessary. Mr. Webster is doing a good work in that section of the city and his church was perhaps never more alive than now.

TEACHERS' ASSEMBLY

Delegates Will Begin Arriving To-day for the Annual Sessions at Wrightsville.

A REVIEW OF THE WORK.

Attendance Will Not Only be Large, But the Meeting Will be Highly Profitable—Secretary Carmichael and Prof. Noble Already Here.

Teachers and prominent educators from all parts of the State will begin arriving to-day for the twentieth annual session of the North Carolina Teachers' Assembly which will begin to-night at the Seashore Hotel, Wrightsville Beach, and continue through Friday, with an excursion to Fort Fisher and other points of historical interest on the Cape Fear river on Saturday. The attendance will reach two hundred or more and the meetings promise to be very interesting and profitable.

Prof. W. D. Carmichael, of Durham, secretary and treasurer of the Assembly, arrived at the Seashore Hotel Sunday and Prof. M. C. S. Noble, a prominent member of the Association, arrived yesterday to be in readiness for the opening session which will be called to order by President Venable to-night at 8:30 o'clock. The exercises will be opened with prayer by the Rev. R. B. John, presiding elder of the Wilmington District, M. E. church, and the address of welcome will probably be by J. O. Carr, Esq., in the absence of Mr. George Rountree, who has an important professional engagement in Kinston, which will take him away from the city this morning. The response to the address of welcome, in behalf of the Assembly, will be by Prof. M. C. S. Noble, of the University of North Carolina. The only other feature of to-night's session will be an address by the scholarly Prof. J. B. Carlyle, of Wake Forest College.

Wednesday morning the teachers will begin bright and early the hearing of reports from standing committees and discussions upon same. Some of the committee discussions will be: "Legislation," led by Prof. C. H. Mebane; "Rural Libraries," led by J. I. Foust, chairman; "Correlation," led by Prof. Edwin Mims; "Monument to C. H. Wiley," report by Prof. R. D. W. Connor, chairman; "Past, Present and Future of Local Taxation in North Carolina," led by Profs. M. H. Holt and E. D. Broadhurst; "Object Lessons in Consolidation," Supt. C. W. Massey, Durham county, and Supt. W. W. Boddie, Franklin county; "What Has Been Accomplished in the Way of Consolidation and What We Hope to Do in the Future," Supt. J. A. Butler, of Iredell county.

Wednesday evening's session will be taken up with the annual address of the president, Dr. F. P. Venable, president of the University of North Carolina, and an address by Dr. C. Alphonso Smith, of the University, who was heard with so much pleasure upon the occasion of the recent High School commencement, in this city.

Thursday will be one of the busiest days of the Assembly. Departmental work will be taken up in the morning and at the same hour there will be a conference of county superintendents with State Superintendent Joyner. The Association of Academics will have charge of the High School Department and the Primary Department will be led by Mrs. J. A. Robinson, of the Durham public schools. One of the features will be a discussion of "The Relation of the Kindergarten to Primary Work," by Miss Bonitz, of Wilmington.

The Assembly is to be congratulated on securing for the whole session Miss Susan Plessner Pollock, of Washington, D. C., who is one of best known kindergartners in the United States. She will arouse an interest in this important phase of education, which will mean much for our children.

At 12:30 P. M. Thursday a general meeting of the Assembly will be addressed by President C. G. Vardell of Red Springs Seminary, who will have for his subject, "The Ultimate Aim of the Teacher." At night the Assembly hopes to have addresses from Hon. Jno. H. Small, of Washington, and Dr. John C. Kilgo, of Trinity College.

Friday morning there will be a number of interesting papers and an address by Prof. P. P. Claxton, of the department of pedagogy at the University of Tennessee. Friday evening the programme announces addresses by such distinguished men as ex-Governor T. J. Jarvis, Prof. Chas. D. McIver, and Prof. Edgar Gardner Murphy, of the Southern Educational Board.

Mistook Fire Alarm Box.

Mistaking fire alarm box 53, Seventh and Queen streets, for a letter box, and attempting to mail therein a missive to a distant friend, a colored man yesterday morning at 8 o'clock gave the Department a long run by his ignorance. The letter was found in the box when the firemen arrived, but the negro had disappeared.

Sympathy for Flood Sufferers.

The Protestant Pastor's Association at its regular meeting yesterday morning adopted the following resolution: "Resolved, That on next Sunday the pastors be requested to make special sympathetic and prayerful reference in their services to the serious disasters and great losses by storm and flood in many parts of our country."

— Rev. and Mrs. F. M. Shamburger left yesterday to attend Trinity College Commencement.

PERSONAL PARAGRAPHS

— Mr. D. S. Yates, of Charlotte, arrived yesterday.

— Mr. Harvey Payne is at home from the Boston "Tech."

— H. B. Alderman, United States Navy, is registed at The Orton.

— Col. W. B. Fort, of Pikeville, was an arrival at The Orton yesterday.

— Miss Alice Borden left yesterday to attend Trinity commencement.

— Mr. Thomas Wilson, the well known railroad president of South Carolina, is at The Orton.

— Mrs. J. H. Register and children, of Clinton, are guests of Mrs. Register's parents, Mr. and Mrs. J. W. Boney, and her brother, Capt. R. B. Boney, on Nun street.

— Mr. E. R. Jones, formerly station agent at Dixon, N. C., but who has been in the A. C. L. Auditor's office here for the last two months, has returned to Dixon, where he will be agent again.

— Prof. M. C. S. Noble, who arrived yesterday to attend the Teachers' Assembly is accompanied by his nephew, Mr. Robert Nobles, who will visit friends and relatives in the city and on the beach.

— Yard Conductor Benj. Phipps, who was injured some time ago by a fall from the top of a box car at the Angola lumber mills, was able to be out yesterday, but it will be several days before he will be able to go to work again.

— Mr. and Mrs. L. Bluethenthal and their daughter, Miss Elsie, arrived Sunday evening from New York, accompained by Miss Alice Rheinstein, who will visit in the city and on the beach. Mr. Bluethenthal is just back from a two month's tour abroad and Mrs. Bluethenthal and daughter went to New York to meet him.

SMALL CLOUDBURST SUNDAY.

Nearly 4 Inches of Rainfall for 48 Hours Up to 8 O'clock Yesterday Morning.

Wilmington and this section of Eastern Carolina were visited by a very heavy downpour of rain Sunday morning between 5 o'clock and noon. Up to 8 o'clock the Weather Bureau recorded 1.71 inches and after that hour until 8 A. M. yesterday 2.22 inches were recorded, making about 4 inches in all during the 48 hours covered by the reports. Three and a half inches of that amount fell between 5 A. M. and noon Sunday, breaking the record for several years past. Drains were inadequate and incalculable damage was done to the streets of the city, especially those that were macadamized. A few cellars were reported flooded, however, with little damage.

The 2.22 inches after 8 o'clock Sunday morning came from strictly local rains, but several points in the Wilmington district had cloud bursts on Saturday night, notably, Cheraw, S. C., 1.16; Florence, S. C., 1.50; Goldsboro, 1.10, and Newbern, 1.51. There was a small washout on the Newbern railroad Sunday and a train was sent out from here to repair it. Fortunately no regular trains are scheduled for Sunday on that road and the washout caused no disturbance to the ordinary traffic.

The heaviest rainfall in the State was 4.75 inches at Weldon for the 24 hours ending at 8 o'clock Sunday morning.

SUMMER SCHEDULE TO BEACH.

Cars Every Half Hour "from Early Morn to Dewy Eve"—Service.

Beginning to-day, the Consolidated Railways, Light and Power Company will put into effect its Summer schedule on the suburban line—the best ever ran between Wilmington and Wrightsville Beach. A car will leave Front and Princess every half hour from 6:30 A. M. to 11 P. M. Leave the beach every half hour, from 6:45 A. M. to 11.45 P. M.

On Monday morning a car will leave the beach at 5 o'clock and make connection with the train on the W., C. & A. road, leaving here at 6 A. M. Also a car will meet the late train on the W., C. & A., arriving at 11.15 P. M., and carry passengers through to the Beach. A car will remain on the beach every night and can be used in case of emergency.

Market Street Runaway.

A pair of horses attached to a closed carriage of the Cowan Livery Co., got away from the driver at foot of Dock street Sunday afternoon and made a record long run from that point, up Water to Market and out Market street to the National cemetery. Strange to say not a thing was broken and the team was recovered by the driver and driven back to the city as if nothing had happened. At the dock of the Brunswick ferry, however, the team ran into a top buggy and horse belonging to Pet Willis, a well known colored man, demolishing the buggy and injuring the horse to some extent. Willis' turn-out was at the dock awaiting transfer over the river.

Struck With Garden Paling.

Chas. Fullwood, a young negro formerly employed on the steamer "Penn Del," was sent to the hospital last night by the police for treatment of two ugly gashes in his head, which he said were inflicted by Arthur Beatty, a negro who was jealous because Fullwood had walked up street with his "lady love" from an excursion boat. Beatty struck Fullwood with a garden paling and six stitches had to be taken in the gashes.

BIG STEAM PIPE EXPLODED.

Machinist Badly Scalded at the Power House This Morning—Negro Oiler Also Slightly Burned.

At a quarter to 1 o'clock this morning a plug blew out of one of the six-inch steam pipes in the power station of the C. R., L. & P. Co., at foot of Castle street, badly scalding Mr. Beard, one of the machinists who recently came here from Pittsburg, Pa., to assist in installing the new plant, and also slightly burning Amos Slater, colored, an oiler in the engine room.

Mr. Beard was working just under the steam pipe when the explosion came with terrific force, blowing him outside the building and the plug tearing a door off its hinges. The patrol wagon was hastily dispatched from the police station to take Mr. Beard to the hospital but in the mean time Dr. W. J. H. Bellamy had arrived and gave the injured man attention. He was later taken to the hospital in a carriage. His injuries are chiefly about the hands, though mush of his clothing was saturated with the hot water. The colored man Slater went to his heme. Mr. Beard was not unconscious but is suffering severely from his burns.

The Hospital Ambulance.

The STAR was in error Sunday in stating that the hospital ambulance had been purchased and would be donated by the Ministering Circle. While the vehicle has already been bought and will be in service in a short time, it was made possible through the generosity of a lady whose name the STAR is not permitted to make known. The fund raised by the Ministering Circle will be used to purchase a horse and other things necessary to the maintenace of the ambulance.

Ladies Called to Assemble.

A meeting of the ladies of the city, who are interested in the Knights of Pythias, is called for this afternoon at 5 o'clock in the parlors of Castle Hall, over the Murchison National Bank. The object of the meeting is to arrange for social and other entertainment of the ladies who will be in Wilmington during the convention of the Grand Lodge, commencing June 16th. The wives and other lady members of Knights of Pythias are urged to be present. MRS. S. H. FISHBLATE.

The N. N. S. Society of Fifth Street M. E. church has arranged for a delightful moonlight trip up and down the river on the steamer "Wilmington" Thursday night, leaving the city at 8 o'clock. The public is invited. Refreshments will be served. The fare is 25 cents for the round trip.

Grand Family Excursion.

Wilmington Legion No. 733, Order of Select Knights, will run an excursion Thursday, June 11th, 1903, to Bald Head. The price will be, for adults 35 cents, children 20 cents. Steamer "Penn Del" will leave her wharf, between Market and Dock streets, at 9:00 A. M., and will return about 8:00 P. M. Get ready to go with us and enjoy a day of real pleasure.

THERE'S NOTHING BETTER made than enameled ware. It's as much superior to tin for cooking utensils as the light of the sun is to that of the moon.

ENAMELED WARE cannot rust. It is almost indestructible, lasting four or five times as long as the best tin.

The cost is a little more than tin, but it is worth it.

We have good tinware, too, for those who want it.

WILLIAM H. BERNARD.

WILMINGTON, N. C.

TUESDAY MORNING, JUNE 9.

DISTANCE LENDS ENCHANTMENT TO THE VIEW.

Baltimore *Sun:* It pains us to note that our friends in Boston are thrown into something of a panic by the proposition to colonize a number of negroes among them. The esteemed Boston *Transcript* professes to believe that the colored brother is a superior person and in all respects better and to be preferred to the white man. And yet this firm friend and advocate of negro political ascendency and social equality in the South, it now appears, loves the negro at a safe distance, and we may conclude that in all the admiration of the colored brother in the North it is distance lends enchantment to the view. The Rev. Mr. Duckrey, who is pastor of Mount Olive Baptist Church in Cambridge, says that within three years he will induce a half million negroes to abandon the South and settle down in and around Boston. Within a fortnight, he says, the advance guard of a sable army will arrive, and by the 1st of September at least 11,000 children of the cotton fields will have settled themselves down under the shadow of Faneuil Hall to enjoy the hospitalities of their friends in that favored spot. The Rev. Mr. Duckrey, it is said, is enthusiastic over his plans and has expounded from his Cambridge pulpit the benefits which will accrue from this proposed influx of negroes. Whether the Rev. Mr. Duckrey is a colored Duckery or merely a white man we are not informed. But it is plain that his enthusiasm has not been contagious. If an attempt is made to carry the colonization scheme into effect, says the esteemed Boston *Transcript*, "it will be found that the idea does not meet with the approval of prominent people of even the negro race." In proof of this our contemporary quotes the Rev. Richard Carroll, a colored man from South Carolina, manager of the Industrial Home at Columbia and formerly chaplain in the Tenth United States Volunteers, as saying that the South is a better place for the negro than the North.

"Race prejudice is growing in the North," he says, "because of the influx of unskilled and unemployed Southern laborers." He adds: "I know of no negroes in the South that have trades that are not employed. Lands are cheap; the white people leave the country and go to the city to work in the mills, and the negro has the opportunity to occupy the farms thus vacated. The South is growing in wealth and prosperity, in intellectual, moral and financial advantages. All of the white people of the South are not our enemies any more than all of the white people in the North are our friends. The negro of the North should protest against this scheme for his own interest as well as for that of the negro of the South. The latter should stay where he is. The climate and conditions suit him better there than anywhere else. If this colonization plan should be carried out there would be more race riots and more bloodshed in the North than there are now in the South. Already there are too many of our race in some localities in the North."

There is a good deal to commend the plan of settling a half million cotton-field negroes in Massachusetts. It would be better to have a million of them, and then the good people of New England would have an object lesson which would be of advantage in reaching some of the conditions the Southern people have to confront. Let a million negroes be so distributed around in the towns of Massachussets as to constitute in about half of them a majority of the population. Give them the right to vote without waiting for them to learn to read their ballots; open the door of hope to them; put them in public office; let them have charge of public affairs in proportion to their numerical preponderance; give them social equality; let them swarm on the street and railroad cars and in the hotels and restaurants; let them levy and disburse taxes although they have no property; let them take charge of the public schools although they cannot read—in short, let them do in Massachusetts just as Massachusetts wants them to do in the South. And then let us see what our New England friends will think of race prejudice.

A remarkable gambling incident is reported from Budapest via Vienna. Some very high play took place there at the National Casino on the night of May 12th. As a result, one Hungarian nobleman won 2,400,000 kronen, or about $480,000, at baccarat in a few hours. One of the losers, who is said to belong to one of the most historic houses in Hungary, dropped 1,600,000 kronen.

DR. PIERCE'S GOLDEN MEDICAL DISCOVERY FOR THE BLOOD, LIVER, LUNGS,

Charles Theinert, a fairly well-to-do Long Island farmer, wants a wife, but imposes certain conditions on candidates for a corner in his affections. For instance, the lady must be a good housekeeper not over thirty years of age. He is willing to buy his wife two gowns every year, to cost not more than $20 each, with shoes, hats, etc., to correspond. The future Mrs. Theinert must agree to forego high-heeled slippers, open-work stockings, cigarettes and poodle dogs, the would-be bridegroom thinking such frivolities are not suited to a farmer's wife.

CURRENT COMMENT

— If the Postoffice Department would devote as much of its time and wind to hunting down rascals as it does to denouncing those who are ready to testify against the rascals, it would create a much better impression on the people.—*Memphis Commercial-Appeal, Dem.*

— Some of the New Orleans people seem to have had an erroneous idea as to the men who attended the Confederate reunion—so erroneous that provision was made for paying the old fellows' street car fare. But there is no longer such an idea in New Orleans. One of the local papers says that "it was the testimony of the business concerns that contributed little or nothing to their entertainment that the veterans made up the best paying crowd that was ever in the city." Louisville bears similar testimony. It is a characteristic of the Southerners that they are good spenders as well as good losers.—*Louisville Courier-Journal, (Dem)*

— "Perry S. Heath pleads not guilty in a long and rhetorical letter, in which he pays profuse compliments to his own unselfish devotion, but throws very little light upon the subjects under discussion. The letter is full of glittering generalities and self-laudation, but we find in it no precise statement of fact, although we gather that he regards Mr. Tulloch as a bad man. It is such a letter as might appropriately have been written at the period when Mr. Payne was denouncing Tulloch and calling on him to 'make good his hot air.' Mr. Heath supplies, as it were, a counter blast, without apparent recognition that the postoffice inquiry has passed the stage of 'hot air' and is getting down to a substratum of cold truth."—*Philadelphia Ledger, Ind.*

— There has been some discussion in Washington as to whether Postmaster General Payne or First Assistant Postmaster General Wynne will have to get out. It is said that the department is not big enough to hold both of them at one and the same time, since Mr. Wynne has reform ideas that do not meet meet with the approval of Mr. Payne. A casual study of the situation, however, ought to settle the question. Mr. Payne is a practical politician, Mr. Wynne is not. Mr. Payne knows how to manipulate delegations and control votes in the convention, Mr. Wynne does not. Mr. Roosevelt needs Mr. Payne in his political machine; he does not need Mr. Wynne. In view of these facts it isn't much of a guess which gentleman will go.—*Savannah News. (Dem.)*

SPIRITS TURPENTINE.

— Kinston *Free Press*: Colored Prophet George Richard has come to Kinston. He says that on August 15, 1903, James City will be destroyed by water and Wilmington, on the same date, will be wiped out by fire. His special mission is to travel about and clear his skirts by warning the people of impending disasters.

— Wilson *Times*: A few days ago Mr. Dick Grantham purchased the old show ground. He sold the lower part of it on Hominy Swamp to Mr. George Morgan who will locate a whiskey still thereon. On the upper part a negro preacher is erecting a tent to commence a revival. Between the two baseball games will be played this Summer, and as a side issue Mr. Perry Taylor will run his merry-go-round. It bids fair to be the most attractive part of the city.

— Elizabeth City *Economist*: The Anti-Saloon League held a meeting in the court house last Tuesday night for the purpose of taking some action in regard to asking for a dispensary. They decided to petition the Board of Aldermen at their meeting the first Monday night in July to call an election to be held within sixty days from that time for the people to vote on the question whether Elizabeth City shall have saloons or a dispensary. This is the opening of the League's campaign for this election.

"For three years," she writes, "I endured insufferable pain from Indigestion, Stomach and Bowel trouble. Death seemed inevitable when doctors and all remedies failed. At length I was induced to try Electric Bitters, and the result was miraculous. I improved at once, and now I am completely recovered." For Liver, Kidney, Stomach and Bowel troubles Electric Bitters is the only medicine. Only 50 cents. It is guaranteed by R. R. BELLAMY, druggist. †

CUTICURA OINTMENT

Purest of Emollients and Greatest of Skin Cures.

The Most Wonderful Curative of All Time

For Torturing, Disfiguring Humours.

Cuticura Ointment is beyond question the most successful curative for torturing, disfiguring humours of the skin and scalp, including loss of hair, ever compounded, in proof of which a single anointing with it, preceded by a hot bath with Cuticura Soap, and followed in the severer cases by a dose of Cuticura Resolvent Pills, is often sufficient to afford immediate relief in the most distressing forms of itching, burning and scaly humours, permits rest and sleep, and points to a speedy cure when all other remedies fail. It is especially so in the treatment of infants and children, cleansing, soothing and healing the most distressing of infantile humours, and preserving, purifying and beautifying the skin, scalp and hair.

Cuticura Ointment possesses, at the same time, the charm of satisfying the simple wants of the toilet, in caring for the skin, scalp, hair and hands from infancy to age, far more effectually, agreeably and economically than the most expensive of toilet emollients. Its "Instant relief for skin-tortured babies," or "Sanative, antiseptic cleansing," or "One-night treatment of the hands," or "Single treatment of the hair," or "Use after athletics," cycling, golf, tennis, riding, sparring, or any sport, each in connection with the use of Cuticura Soap, is sufficient evidence of this.

Millions now rely on Cuticura Soap, assisted by Cuticura Ointment, for preserving, purifying and beautifying the skin, for cleansing the scalp of crusts, scales and dandruff, and the stopping of falling hair, for softening, whitening and soothing red, rough and sore hands, for baby rashes, itchings and chafings, as well as for all purposes of the toilet, bath and nursery.

SITUATION AT VALPARAISO.

U. S. Warships Ordered There at Once to Protect American Interests in the Event of an Emergency.

By Telegraph to the Morning Star

WASHINGTON, June 8.—Upon the receipt of a report from American agents in Chile to the effect that the situation at Valparaiso is unsatisfactory, owing to the recent social disturbances there the State Department this afternoon requested the Navy Department to dispatch a ship to that point in order that American interests may be fully protected in the event of an emergency. Cable orders were sent to Rear Admiral Sumner, commanding the North Atlantic station, to proceed at once with his squadron now at Montevideo, at the straits, to Valparaiso. Rear Admiral Sumners' fleet consists of the protected cruiser Newark, flagship; protected cruiser Detroit and the gunboats Gloucester and Montgomery. Orders also were telegraphed to Admiral Glass, at San Francisco, to be ready for sea and in the event that Admiral Sumner's fleet is unable to get under way at once the Pacific squadron may be ordered to Chilean waters in its stead.

COMPLAINT FILED.

Alleging That Round Bale Cotton is Discriminated Against in Freight Rates.

WASHINGTON, June 8.—The Planters' Compress Company, of Boston, to-day filed complaint with the Interstate Commerce Commission against the Cleveland, Cincinnati, and St. Louis; Lake Shore and Michigan Southern; New York Central; Erie; Illinois Central; Boston and Maine; New York, New Haven and Hartford; Delaware, Lackawanna and Western; Wabash; Pennsylvania, Terre Haute and Indianapolis; Pittsburg, Cincinnati, Chicago and Indianapolis; Nashville, Chattanooga and St. Louis and Southern Railway, alleging that round bale cotton is discriminated against in freight rates.

The American Manufacturers' Association, formerly the Cotton Spinners' Association, Charlotte, N. C., has subscribed $1,000 in cash for the relief of the flood sufferers. Five hundred dollars was immediately sent to Pacolet and $500 to Clifton, S. C.

HUNDRED PEOPLE WERE DROWNED.

Terrible Result of a Collision of Passenger Steamers Near Marseilles, France.

ONE OF THE VESSELS SANK.

And as She Went Down Her Boilers Exploded, Intensifying the Horrors—Many Bodies Recovered—The Other Vessel Damaged

By Cable to the Morning Star.

MARSEILLES, FRANCE, June 8.—A terrible shipping disaster occurred a little distance from this port at noon to-day, when two passenger steamers, the Insulaire and the Liban, both belonging to the Frazzenet Steamship Company, of Marseilles, came into collision. The Liban sank and over 100 of her passengers and crew perished.

Officers of the steamer Balkan describe the scene just before the Liban disappeared as a terrible one. As the vessel was sinking she was inclined to such an angle that her masts struck the water, causing an eddy which made the work of rescue most difficult. A mass of human beings were clinging to the foundering vessel and uttered despairing cries as she went down. At the same time the boilers exploded, intensifying the horrors. For a few moments the victims were seen struggling in the sea, then the waves closed over them and all was silent. Of about two hundred passengers who were aboard the Liban it is feared that at least half were drowned.

The Balkan launched three boats and the other vessels did all possible to save the victims in the short time that elapsed between the collision and the sinking.

Up to 5 o'clock this afternoon thirty bodies had been recovered.

The French steamer Liban was a three-masted schooner-rigged vessel, 998 feet long and of 2,308 tonnage gross. She was built in Glasgow in 1882.

JURY FOUND TRUE BILLS

Against the Groff Brothers for Offering Bribes to A. W. Machen, of the Postoffice Department.

By Telegraph to the Morning Star.

WASHINGTON, June 8.—The Federal grand jury has found true bills against the Groff brothers in connection with the alleged offering of bribes to A. W. Machen, former superintendent of free delivery of the Postoffice Department. This action was taken on the same day that Mr. Machen was indicted. The delay in presenting the indictments has been due to the fact that they could not be prepared for presentation before to-day. The bond of A. Groff was increased from $5,000 to $10,000 and that of Diller B. Groff was not changed from $10,000. Both furnished the required bond for their appearance at the Fall term of the court.

The Groff brothers will be tried under Section 5451 of the Revised Statutes, which makes it an offence to promise money to any government officer with the view to influencing his action or decision on any question or matter which may be pending before him. By bringing in the indictments to-day the hearing before the United States commissioner, which was set for to-morrow, will be abandoned.

The grand jury will at once take up the case of James N. Tyner, former assistant attorney general for the Postoffice Department, who was dismissed from office as a result of the rifling of the safe in his office. Although the opening of the safe was not done by Mr. Tyner personally, it is said that he was connected with the act in such a way as to compel the laying of the case before the grand jury for its action.

A DIFFICULT PROPOSITION.

The great scourge of the Mississippi valley proper below St. Louis is the periodical flood which devastates it. The millions of money which have been put into levee construction have resulted in the sure and certain raising of the level of the river bed, making it each year more and more difficult to prevent the overflow of water. China practiced the same method for hundreds of years with the Yellow river until it has become a vast aqueduct and a constant and terrible menace in times of flood to the millions of people who live on the plains below.

DWARF ESSEX RAPE.

The Dwarf Essex rape has come greatly into favor during the past five years as a forage plant. Only a few years ago it was almost unknown. Now almost every up to date farmer grows it, some for a summer hog pasture, some sowing it for a catch crop, some sowing it with small grain and some among the corn, each finding it very useful no matter how grown. If you have not tried it as yet, sow a small piece for the pigs. Plow up the old hog lot and sow it, turning in when the rape is six inches high.

A LAYING MATCH.

A novel international egg laying contest is to be undertaken between Australian and American hens. Twenty-one American hens of the best breeds, each having a record for 200 eggs per year, have been sent to Australia to compete. The Australian government pays $25 for each of the hens at the close of the contest and $5 a dozen for the eggs laid by them. The hens of that country do business at the rate of fifty or sixty eggs per year.

Gentlemen—Some six years ago I began to have sciatica, and also a chronic case of muscular rheumatism. At times I could not work at all (my business being baggage master on Southern R. R.). For days and weeks at a time I could not work. My suffering was intense. Physicians treated me, without permanent relief, however. Tried a number of advertised remedies without permanent benefit. Finally I tried "RHEUMACIDE." It did the work, and I have had excellent health for three years. I can cheerfully say that all rheumatics should use "RHEUMACIDE," for it is by far the best remedy.

Can't Stand the Trolley.

P. A. B. Widener, the Philadelphia traction magnate, controls thousands of miles of street railroads in America, but he cannot ride in a trolley car without suffering from an exact imitation of seasickness. Once he made a desperate effort to overcome this weakness. Accompanied by W. L. Elkins, his partner, he went for a twelve mile ride and stuck at it until the trip was ended. By that time he was in a state of complete collapse. He came back on the steam railroad and has not ventured on a trolley car since.

Carnegie and Size.

Mr. Carnegie likes to talk to tall men. Pittsburg friends say that they have known him to deliberately scrape up acquaintance with representatives of the six foot and over class for no other reason in the world than to ask them how they managed to grow tall. Mr. Carnegie has never got over his boyhood ambition to be a big man physically. He once said to a friend apropos of this disappointment: "People tell me that I'm a big man. But I'm not as big as I'd like to be. Look at me."

The valuation of the park lands of the Greater New York is now put at $300,000,000, of Chicago at $65,000,000, Boston $58,000,000, Philadelphia $22,000,000, San Francisco $12,000,000 and St. Louis $8,000,000.

General Sherman's Sharp Retort.

General Sherman could say the most pleasing and tactful things and yet no one could be more sarcastic. He was attending a large reception at Fort Leavenworth once when a youth approached him and said familiarly, "What a great bore these things must be to you, general." "What's that?" asked General Sherman quickly. "I say," repeated the other, "it must be such a bore to you, meeting a lot of people you don't know and making them feel your do remember them." "Yes, yes," replied the general. "Now, for instance, "I don't know who you are."—Leslie's Weekly.

COTTON MARKETS

By Telegraph to the Morning Star

NEW YORK, June 8.—The cotton market opened firm at an advance of five to twelve points under higher cables and small receipts for the day. Liverpool at the time of the local opening was about three to five points higher, whereas a decline had been expected and the ports receipts were estimated at around 3,000 against 5,479 bales last year. At first trading was not particularly active and the market, while displaying considerable firmness on the whole, ruled somewhat irregular. The weather was not entirely favorable—too much rain being reported in eastern sections of the belt, and further flood accounts from the Carolinas caused the trade to take a bullish view of the situation. Europe and Wall street operated on the buying side and several large commission houses had good buying orders from New Orleans. Around midday the market became very active, with July exhibiting strength almost as remarkable as during the tremendous advances of last month. The gain was started by the sensational developments at New Orleans, where July was being bid up ten points at a jump under heavy buying by the bull leader. Here shorts became panic stricken and both July and August were forced up at a rapid rate, July selling as low as 11¼ on the call was forced up to 11.83 at the best level which occurred just at the close, this being the best point of the day and season. In New Orleans, the advance was even more pronounced; there July shot up from 12.80 to 13.00, with not an intermediate sale. August and September also reached new high records in the local market, the former touching 11.17 and the latter 10.97. The close was near the best point of the day and net twelve to sixty-six points higher. Total sales futures were estimated at 350,000 bales. Estimates for to-morrow's receipts at leading points were moderate.

J. E. Bloodworth, residing at 30 South Front street, and employed at 123 Princess street, says: "I used Doan's Kidney Pills and they have proven to be a very valuable remedy and I believe I am safe in recommending them. My back and kidneys have given me great trouble. I thought I had rheumatism. I had shooting pains through my back and side which often made me yell right out. If I stood, sat or lay down or kept in any one position for any length of time it was almost impossible for me to move on account of the great pain. I heard some one speak in praise of Doan's Kidney Pills and I sent down to Bellamy's drug store and got a box. They completely knocked the pains out of me. They are without doubt, a valuable remedy for back ache."

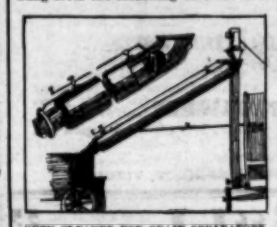
The seed cleaner described herewith is adapted to be used in connection with a thrashing machine to save the expense and labor of transporting with the wheat a lot of refuse which must subsequently be separated at a loss to the farmer. The improved cleaner may be readily adjusted to clean different kinds of seeds from grains, discharging the refuse into bags instead of permitting it to accumulate beneath the separator.

The invention, as described in the Scientific American, comprises a delivery spout, which is arranged to receive the grain from the elevator of the thrashing machine. This spout is so hung from the thrashing machine as to



SEED CLEANER FOR GRAIN SEPARATORS.

permit its being swung to any desired position. Within the spout is a series of screens which have meshes of different sizes. These screens are united together in a manner to produce a shoot of square cross section. This shoot is of such size as to fit snugly into the spout. A hopper is provided at the upper end of the spout and serves to direct the grain through a feed tube into the screen shoot. A regulating gate is hung pivotally in the feed tube. This gate may be operated by the sliding rod on the spout to limit or cut off the flow of grain into the screen. The rod may be secured at any desired position.

The grain is cleaned by flowing down over the lowermost screen. The refuse passes through the meshes of the screen and is collected in a bag hung beneath the lower end of the spout, while the grain flows on through the shoot into any suitable receptable. By rotating the screen shoot, screens of different sizes may be brought into position as desired. For instance, one screen may permit grass seed, mustard seed and buckwheat to pass through, while the wheat passes over the screen, the second screen may separate grass seed and mustard seed from flax, a third screen may separate foul seed from barley and oats and a fourth screen may permit wheat to drop through the meshes, while the wild oat seeds pass over the screen.

The inventor of this seed cleaner is Mr. Levi Thortvedt of Glyndon, Clay county, Minn.

Boll Weevil Problem Solved.

A series of experiments has been made by expert entomologists of the Mexican government with a view of devising some method for eradicating the cotton boll weevil, which pest has caused losses aggregating many millions of dollars to the cotton planters of Texas and Mexico. It is officially proclaimed that success has finally rewarded the efforts of these scientists and that it has been discovered that a peculiar species of spider, which exists in certain localities of the tropics of Mexico, is insectivorous and that it will feed upon the eggs of the cotton boll weevil and the weevil itself.

An Austrian Steel Trust.

The organization of the steel and iron industry of Austria-Hungary under the control of a single directorate or syndicate is announced. The new "kartel," as it is called, includes twenty-three concerns, with a combined capital of 280,000,000 kronen ($75,000,000). Every important iron and steel interest in the two countries—bars, plates, rails, nails and wire—is said to be controlled by the trust. The agreement is to run until 1912.

American Peanuts Abroad.

The demand for American peanuts in France is practically unlimited if the American exporters can meet the prices paid for the African nuts in the shell, ranging from $3.95 to $4.73 per 220 pounds. So states Consul General Skinner at Marseilles in a report to the state department. During the past year about 10,000 bags of American peanuts were received at Marseilles, and the consul general says that the oil into which they were manufactured was of good quality, although the quantity was rather less than that derived from the same amount of African nuts.

When Ballooning Began.

Balloons were used millions of years before man invented them, says Dr. Dallinger. Late studies have shown that the long glistening threads of gossamer seen in fields on early autumn days are due to spiderlings, whose first silk is woven into balloon baskets in which they float away. They cut or extend the threads trailing from these balloons as the pressure of the atmosphere may dictate.

Mr. J. J. Hill is economizing on the Great Northern railway by the use of three sided railway ties. Each tie is twelve inches wide instead of eight, thus covering four inches more space, and its more economical cutting saves ten feet, or 1,440 cubic inches, of lumber.

If from the beginning of American railroading three cornered ties had been used, the lumber saved up to date would have been about 2,447,926,400 cubic feet. This lumber, the saving alone, if stacked up solid on the side of Madison Square Garden would, says the New York World, tower nearly four miles into the air, overtopping the highest mountain in the United States. It would plank over all Rhode Island an inch and a half thick. It would cover every house, street, lot, lake, swamp, park and vacant field in the Greater New York with a six inch coat of solid lumber. It would equal the timber product of 15,000,000 of the best pine trees that ever grew in the eastern states.

New Type of Street Cars.

A new type of street cars is being made for the Twin City Rapid Transit company, which operates lines in Minneapolis and St. Paul, and by its use the managers believe they will be able greatly to facilitate their service. Separate entrances and exits through the rear vestibule are contemplated, and a plan is being worked out for a means of ingress through the motorman's cab. Both the front and rear vestibules are to be lengthened a foot or two. A partition will divide these vestibules in half. At the right will be the entrance and at the left the exit. Thus passengers may enter and leave the car without jostling. It is believed that with the separate entrances and exits the time for stops will be reduced by one-half.

Plenty of Bags.

Every closet door used to have its ostensible shoe bag, but in these advanced days boot trees have taken its place, the shoes being kept in shape longer than when they were carelessly thrust into a pocket. The bag has other uses, however. Mittens, rubbers, clean dust cloths, a ball of string, numerous small things which one would wish to have close at hand, are conveniently kept in pockets. The trouble is that they are too apt to become receptacles for all sorts of rubbish. The domestic science experts who propose to abolish the kitchen pantry and whose motto is "Everything in sight" would probably object to them on this score.

Creamed Calf's Liver.

Creamed calf's liver is an inexpensive and a delicious luncheon or breakfast dish. Cut the liver into small pieces and cook for twenty minutes in butter. Take up the liver and lay it on a hot plate. Into the butter in the pan put a tablespoonful of minced onion and let this brown. Add a tablespoonful of flour and cook until it begins to froth, stirring gently. Draw the pan back or lower the gas flame and gradually add a pint of milk, stirring all the time. Put the liver back into the gravy and allow it to simmer five minutes longer.

Flowerpots on Glass.

An experienced flower grower, who has her plants not only on the several window sills of her apartment, but scattered through the room on tables and stands, says she has found that a square of glass makes the most effective support for a flowerpot or jardiniere. If placed on the woodwork itself or on a centerpiece, the pot is sure to make a bad spot. The glass saves the polished wood or bit of embroidery, at the same time not concealing them.

Curried Apples.

Curried apples are a novelty with many persons. To prepare them core a half dozen large, tart apples and arrange them in a baking dish. Cream together four tablespoonfuls of butter and a cupful of brown sugar and beat in a teaspoonful of curry powder and a tablespoonful of lemon juice. Fill the space left by the cores with the mixture and bake in a quick oven. Serve cold.

Startling Evidence.

Fresh testimony in great quantity is constantly coming in, declaring Dr. King's New Discovery for Consumption, Coughs and Colds to be unequaled. A recent expression from T. J. McFarland, of Bentonville, Va., serves as example. He writes: "I had Bronchitis for three years, and was doctored all the time without being benefitted. Then I began taking Dr. King's New Discovery, and a few bottles wholly cured me." Equally effective in curing all Lung and Throat troubles, Consumption, Pneumonia and Grip. Guaranteed by R. R. BELLAMY, druggist. Trial bottles free; regular sizes 50c and $1.00.

TUESDAY MORNING, JUNE 9.

KENTUCKY MURDER CASES.

Military Guard in Charge of the Court. Difficulty in Obtaining a Jury—An Assassination Prevented.

By Telegraph to the Morning Star.

JACKSON, Ky., June 8.—It is believed that the soldiers guarding the house of B. L. Ewen, the principal witness against Jett and White, prevented assassination last night. Ewen keeps a hotel. Parties claiming to be man and wife applied last night for lodging and were taken in. Mrs. Ewen was suspicious and asked for additional guards. When the lodgers were heard moving about in their room the soldiers made an examination and found both were men. The parties were turned away and no arrests were made. The soldiers cannot make arrests until martial law is declared and the county officers are making no arrests for drunkenness or suspicion. There has been no town marshal here since Cockrill was killed.

Judge Redwine came into court today prepared to call the cases against Curtis Jett and Tom White, charged with the assassination of J. B. Marcum. A large crowd had gathered in anticipation of the trials. The military guard was in charge of the court house and many who entered were searched for weapons. Court was delayed on account of the non-arrival of a large portion of the Maggofin county venire of jurymen from whom a jury is to be made up. The movement to swear Judge Redwine off the bench because of marital relations with the Marcum family did not materialize during the morning, but it is said this will be done. The court adjourned until to-morrow morning, being unable to obtain a jury from the sixty men summoned. Elizor Jones was sent back to Maggofin county to get twenty-five veniremen.

POSTAL SERVICE BROKEN.

Serious Delays to Traffic Caused by the Floods in the South.

By Telegraph to the Morning Star.

WASHINGTON, June 8.—The Postoffice Department to-day received dispatches stating that the railway postal lines between Greenville and Columbia, S. C., and between Greenville and Charleston, were broken again to-day by the high waters.

The service also is broken between Hamlet and Atlanta, Ga. There is no postal communication between Monroe and Clinton to-day. The floods have caused numerous serious delays to traffic in the South.

Representative Johnson, of the Spartanburg, S. C., district was at the Postoffice Department to-day and told Assistant Postmaster Shallenberger that 10,000 people in his section of the State had been thrown out of employment by the washing away of factories and mills. He says that he succeeded in getting out of Spartanburg by walking and riding on a mule for several miles to a point where the trains could run.

MONITOR NEVADA

Considerably Damaged by Explosion of One of Her Big Guns.

By Telegraph to the Morning Star.

NEWPORT NEWS, Va., June 8.—The new monitor Nevada is still at Old Point, awaiting orders to sail to one of the government yards for repairs.

A few days ago, while at target practice off the capes, the shock of the explosion of one of the big guns tore up the turrets with considerable damage. The monitor returned to Old Point and the department was notified of the accident. Orders are hourly expected for her to sail at once to one of the navy yards for repairs.

LATE KING O'KEEFE.

American Lawyer at the Island of Yap Looking After Interests of Heirs.

By Telegraph to the Morning Star.

WASHINGTON, June 8.—A cable message received at the Navy Department to-day announces the arrival at Cavite, P., of the collier Justin, from a cruise to Guam, which included a visit to the island of Yap, of the Pelew group. The especial object of the Justin's visit to Yap was to land an American lawyer who is engaged in looking after the interests of the American heirs of the late King O'Keefe, an American voyager, who was chosen to rule over the native of Yap and who is said to have acquired a large fortune.

THE POPE'S CONDITION.

Suffering from an Attack of Hemorrhoids But Steadily Improving.

By Cable to the Morning Star.

ROME, June 8.—The Pope's health continues satisfactory. Since the time his Holiness was Archbishop of Perugia he has been occasionally troubled with hemorrhoids, especially after a period of fatigue. This is the case now. Fortunately the reappearance of the trouble was accompanied by hemorrhage, this obviating the necessity of an operation. The Pope has experienced much relief and may be said to-night to be entirely well again.

GREAT FLOOD AT CITY OF ST. LOUIS.

Twenty Lives Known to Be Lost and the Property Damage Estimated at $3,000,000.

25,000 PEOPLE ARE HOMELESS.

The Freight Traffic Paralyzed—Thousands of Stock Drowned—East St. Louis Threatened With Complete Inundation.

By Telegraph to the Morning Star

ST. LOUIS, June 8.—So great an extent of terrritory is covered by the flood, so constantly changing are the conditions as the water creeps higher and renders the situation the more chaotic as the rumors of devastation come to hand, that an accurate estimate of the loss of property and lives cannot be obtained, but to-night information from apparently the most reliable sources shows the situation to be as follows:

River stage, 37.5 feet, stationary; probably a slight rise by morning, when the highest stage shall have been reached. Twenty lives known to have been lost. Over 200,000 acres of rich farming lands under water. All of Venice and the greater parts of Madison and Granite City under water. Twenty-five thousand people rendered homeless. Freight traffic completely paralyzed and passenger traffic partially so. The shipping and manufacturing district of East St. Louis for three miles along the river front under from two to eight feet of water. Hundreds and probably thousands of head of stock drowned. East St. Louis threatened with complete inundation. St. Louis flooded only along the water front. Entire property loss estimated at $3,000,000.

The entire group of east side cities lying just north of East St. Louis and including Venice, Madison, West Madison, Newport, Brooklyn and Granite City, are under from 10 to 18 feet of water which is still rising. Very little confirmatory reports of drowning can be had, as the places are all cut off from railroad service and telephone communication is uncertain at best. The Weather Bureau promises relief after the river shall have risen to about 38 feet.

So far as known the casualities are as follows: John Crittenden, aged 10, drowned near Merchants' Bridge, in Venice; a woman and seven children swept from a fence by the flood in sight of the Terminal railroad operator at Madison, who was attempting to save them; a woman in Madison, near the American car works; a woman and baby seen clinging to a telegraph pole in Madison; the pole turned in the water and both disappeared.

Manager Shipley, of the Madison car works reports, seeing seven employes of the American Car and Foundry Company drown.

The harbor boat Mark Twain and private yacht Annie Russell, with several tugs have gone to Madison and Granite City where the floods have caused a number of deaths and where scores of families, cut off from escape, are at the mercy of the rising water.

Dummy trains of the Terminal Association, connecting with skiffs, commenced to-day the work of bringing across the river more than 700 persons who spent Sunday afternoon and night on the tops of houses and at other points of elevation above the flood in Madison, Venice and Newport. Four drownings were reported by the refugees, but none knew the names of the victims. One said that a father, mother and child had been drowned while trying to reach a point of safety, and another told of the death of a man under like circumstances.

In East St. Louis, on proclamation of Mayor Cook, business is suspended, the saloons are closed and everybody is at work on the levees in a desperate effort to save the city, which is from one to four feet below the level of the water that passes up against the embankments. A hastily constructed levee of sandbags and mud is all that stands between the city and almost complete submersion. If the levee gives way all the main part of the city will be quickly flooded and not a street in the business section will be left out of water.

Train service in every direction is laid out by the high water and no freight business is being done at all on the eastside. Two roads, the Missouri Pacific and 'Frisco, are the only ones running trains between here and Kansas City. Passenger traffic and the most urgent freight business is all that the railroads will handle West. It is too early accurately to estimate the damage, which, however, will run into the millions, and the loss due to the interference with business.

This afternoon the viaduct connecting East St. Louis with the Eads bridge was condemned as unsafe. The street cars were stopped and not allowed to cross the bridge.

The water of the Cahokia creek has been washing against the viaduct for several days and it has been strained to its utmost by sight-seers, who used it as a vantage point to view the flood.

SITUATION AT TOPEKA, KS.

Mud a Foot Deep—Mayor Calls for Assistance to Clean Flooded District. Legislature May be Called.

By Telegraph to the Morning Star.

TOPEKA, KAS., June 8.—The pontoon bridge connecting North Topeka with the north approach of the Big Melan bridge, which latter spans the river connecting both parts of the town, went out to-day. This severs all connection with the north side save by boat and it is not thought that it will be possible to repair the damage before Wednesday. This will result in great hardships to the people now in North Topeka, as all the boats sent here from the outside have been taken away.

It is regarded as practically certain that there will be a special session of the Kansas Legislature within two weeks to appropriate money to relieve some of the damage caused by the flood of a week ago.

Telegrams are being sent to all the members, asking them to serve without pay. Up to this time replies from twenty have been received who are favorable to the arrangement.

Mayor Bungdenghal issued a proclamation to-day, asking the merchants to close their stores to-morrow and that every able-bodied man should go to work for the day, cleaning the flooded district.

Mud is a foot deep and it will require an enormous amount of work to get the streets clean.

The Vatican has officially announced that the Rev. J. J. Harty, pastor of St. Leo's church, of St. Louis, has been appointed archbishop of Manila.

THE FRENCH BOMBARDING REBELLIOUS TRIBESMEN.

The Arabs' Stronghold Destroyed With Houses of the Inhabitants--A Mosque Blown to Pieces by Artillery.

By Cable to the Morning Star.

RENI-OUNIF, ALGERIA, June 8.—The French artillery opened a preliminary fire at 5:30 o'clock this afternoon on Figuig, the stronghold of the rebellious Senega tribesmen who recently attacked and tried to ambush Governor General Jennart and his escort, of whom thirteen were seriously injured. The actual bombardment began at 7:30 o'clock and lasted until 11 A. M., when a great destruction of houses had been wrought, the mosque destroyed, and it is believed a great number of natives killed.

General O'Connor commands the punitive expedition, consisting of four thousand men of the foreign legion and a strong force of artillery, armed with guns firing melinite shells. General O'Connor's plan was to advance on Figuig in three columns and post his artillery on commanding hill's surrounding the rebel's stronghold.

At 9:30 A. M. the French troops occupied Juive Hill, another eminence, both strategic positions, by a surprise movement. The ramparts of the town were then 1,200 metres distant and like the houses, which were half a mile behind them, built of compressed earth. From these hills the artillery made excellent practice, the melinite shells making a big breach in the ram parts and destroying a multitude of houses, the inhabitants of which had fled at the first shots. Finally the fire was concentrated on the mosque, which was much venerated, and the edifice was blown to pieces. This destruction of the mosque is expected to have a great moral effect. The Moors, concealed in the palm groves, replied with artillery to the French bombardment, but without effect. At 11 o'clock the French guns were withdrawn to Djennan-Ed-Dar, where General O'Connor was awaiting offers of submission when this dispatch left.

All the women and children left town before the action. The French fired a few shells at different parts of the oasis, in order to impress the Moors with the power and range of the French guns. There was no loss on the French side.

NEW YORK STOCK MARKET.

Liquidation in Force Last Week Continued on a Large Scale.

By Telegraph to the Morning Star.

NEW YORK, June 8.—Wall street's gloomy spirits were unrelieved to-day and the liquidation which was in force last week continued on a large scale. There was very heavy selling of the corn carriers and the cotton carriers, based on the delay in planting the corn crop and by the bad weather in the South. The coalers were also under special pressure, on account of the fear that labor troubles will break out amongst the miners. The declines reached three points or over in the course of the day for Atchison and Reading and between two and three points for most of the active stocks in the list. St. Paul showed some early resistance but weakened finally and New York Central and Pennsylvania were comparatively free from pressure. The selling seemed to come from all quarters, orders by commission houses playing a large part in the activity of the market. Buying by shorts to cover caused a substantial rally. The market closed about steady.

LYNCHING IN GEORGIA.

Negro Murderer of Mr. Cope Winslow Hanged by Citizens of Fort Valley.

By Telegraph to the Morning Star.

MACON, GA., June 8.—W. Cope Winslow, Jr., whose father was one of the leading members of the Georgia Bar, was instantly killed by a negro named Banjo Peavy, on the former's farm near Fort Valley at 2 o'clock this afternoon. The negro owed Mr. Winslow a small amount of money and was asked to work out the debt. He refused, impudently, and shot Mr. Winslow through the forehead. Before Winslow died he fired twice at his fleeing assailant without effect. When the news was brought to town a posse was organized and the country searched. Peavy was soon captured and turned over to the sheriff. At 8:30 o'clock to-night the sheriff's officer and guard were overpowered and the negro taken to a grove within the corporation limits, where he was hanged and his body riddled with bullets. Young Winslow was the main support of his widowed mother and three sisters.

By Telegraph to the Morning Star.

CHARLOTTE, N. C., June. 8—The Southern railway train No. 97, the fast mail from New York to New Orleans, which is now routed via Columbia on account of the recent flood, collided with a freight train near Fort Mill about half past 6 o'clock this afternoon. Only one man, Engineer W. A. Silon, of Columbia, S. C., was seriously injured. One ankle was broken and the leg bruised so that he may lose it. The occupants of both cabs jumped.

The contact was head on at full speed and occurred on a high fill. The engines were badly torn up and both rolled down the embankment. Five or six freight cars were demolished and one mail car considerably damaged. Some of the mail clerks were slightly bruised. The track will probably be cleared by morning. It is said that the freight crew misread orders and ran past the meeting point.

STATE RETAIL GROCERS MET.

North Carolina Convention in Raleigh. Wilmington Representatives There.

[Special Star Telegram.]

RALEIGH, N. C., June 8.—The North Carolina Retail Grocers' Convention, called for the purpose of organizing a State Association, met this afternoon. State Auditor B. F. Dixon delivered the address of welcome, which was responded to by Fred Mason, secretary of the National Association. Jo. Dunn, of Newbern, was made temporary chairman; J. B. Green, of Raleigh, secretary. A number of committees were appointed, looking to a permanent organization. To-night there were talks on "Collection Systems," participated in by Fred. Mason, National Secretary; Jno. Braton, of Atlanta; J. K. Sink, of Salisbury; J. E. Peterson, of Goldsboro; C. C. King, of Durham, and P. Heinsberger, of Wilmington. Constitution and by-laws will be adopted and officers elected to-morrow.

In committee assignments, P. Heinsberger was named on that on by-laws and constitution, and J. P. Montgomery on nominations. Other Wilmington delegates are D. Gilsson and Jas. Perry.

FLOOD DAMAGE AT PACOLET, S. C.

The Death Roll Numbers Fifty-eight and the Property Loss $3,500,000.

DAMAGE TO OTHER MILLS.

Mary Louise Mill on Island Creek Totally Destroyed—Damage to the Tiger Mill, the Tucapau and the Fingerville Mills.

By Telegraph to the Morning Star

SPARTANBURG, S. C., June 8.—The interruption of all means of traffic and communication caused by the high water in the Pacolet valley made it impossible until to-night to secure anything like an accurate death roll of the floods victims. The following purports to be a complete list of the drowned: Joseph Hall, his mother, wife and six children; Bud Emory; Oliver Johnson; E. Robbs, wife and two children; Julius Biggerstaff; August Clavert, wife and two children; Mrs. Hinson and child; Mrs. Williams; eleven members of the Lowing family; Mrs. Massey and four children; Grenable Sims; Robert Finley and wife; Mrs Owens and children; Dock Williams; Rosco Johnson; Maggie Kirby, Garland Long and wife; Miss Fletia Goss; Mrs. William Kirby. The bodies of the above have been recovered and identified.

Three unidentified bodies have also been taken from the river, making the aggregate of the death roll fifty eight.

The relief subscriptions to date amount to nearly $7,000, including $1,000 given by the American Cotton Spinners Association. The relief committees have also secured a great quantity of clothing and rations.

The Mary Louise mill, on Island Creek, operating 2,000 spindles and owned by B. E. and J. S. Wilkins, was totally destroyed.

Portions of the Tiger mill, on Middle Tiger river, are also reported demolished with a loss of $15,000. The damage to the Tucapau mills will aggregate $10,000 and to the Fingerville mills $8,000. These losses are additional to the heavier damage to the Clifton and Pacolet plants and swell the total in the flooded districts to something like three and a half million dollars.

MAJ. STEDMAN FOR GOVERNOR.

Staff Correspondent of Charlotte Observer Gives Impressions from Greensboro.

Mr. H. E. C. Bryant, the well-known staff correspondent of the Charlotte *Observer*, sends that paper the following from Greensboro:

"Major Charles Manly Stedman, of Guilford, is going to give somebody trouble. It is not denied by his friends that he will be a candidate for Governor at the next Democratic convention. His friends, and their name is legion, say that he is the ideal man. He was Lieutenant Governor at a time when the State Senate was full of splendid fellows who have since developed into prominent men. Many of these are certain to be among the Greensboro man's most loyal supporters. Major Stedman is a clean man, a polished gentleman, a rounded scholar and a popular fellow. Greensboro has claims and she will ask for the nomination of Maj. Stedman. Just the mere rumor that Maj. Stedman would be in the race has brought hundreds of letters from prominent politicians and admirers from all parts of the State. Major Stedman was born in Chatham, lived in Wilmington and practiced law in Asheville and Greensboro. He is well and favorably known. If he enters the contest, and his friends are certain that he will at the proper time, somebody will suffer.

Carolina Beach To-day.

To-day a big family excursion will be run to Carolina Beach under the auspices of Hanover Lodge of Odd Fellows. The features of the day will be varied and attractive, among them a dazzling performance by "Arra," the great flying ring artist; dancing and music at the new pavilion; turtle egg hunt; refreshments; ice water free, and many others. The first boat will leave at 9 A. M.; also others at 2:45, 5:15 and 7:45 P. M. Fare for the round trip, 25 cents.

BUFFALO LITHIA WATER

Has for Thirty Years Been Recognized By the Medical Profession as an Invaluable Remedy in Bright's Disease, Albuminuria of Pregnancy, Renal Calculi, Gout, Rheumatism and All Diseases Dependent upon a Uric Acid Diathesis. Time Adds to the Voluminous Testimony of Leading Clinical Observers.

Robert C. Kenner, A. M., M. D., *Ex-President Louisville Clinical Association, and Editor of Notes on "Garrod's Materia Medica and Therapeutics," Louisville, Ky.* (See "Garrod's Materia Medica and Therapeutics," fourth edition, revised by Kenner.):

"In the treatment of Gout and all the manifestations of Uric Acid Poisoning, BUFFALO LITHIA WATER is indicated and will be found very efficient. In Rheumatism, especially the chronic expression, we shall find the water very valuable. The waters of both springs have been found by extensive trial to possess remarkable solvent powers over Renal Calculi and Stone in the Bladder. We have the authority of that great clinician, Prof. Alfred L. Loomis, that BUFFALO LITHIA WATER is of great value in Bright's Disease, and Hammond and other great observers find it greatly beneficial in this condition. In dyspepsia and gastro-intestinal disorders the water has been found very efficacious. In vomiting and nausea of pregnancy there is no remedy frequently shows more efficacious than BUFFALO LITHIA WATER itself to be."

Medical testimony mailed to any address. For sale by druggists and grocers generally.

Rush for Dog Badges.

Assistant City Clerk and Treasurer White did a land-office business in dray and dog badges yesterday. The "dog cart" goes out this week and the large sale of badges indicates that either there is an increased number of canines in Wilmington this year or that those here are more appreciated by their owners than ever before. The number of badges sold thus far is 286, half of which were handed out to owners of dog flesh yesterday by Maj. White. The tax is $1 for males and $2 for females.

The Summer Season Is Opening Up Fine!

The great public knows how to appreciate good things. Our May business was a record breaker, the largest we have ever had.

While we thank our friends and customers for their liberal patronage during the month of May, we are trying now hard to heap new laurels on June's head. Our big store on Front street is kept busy all the while. If you haven't been trading with us we would like to know the reason. We want your business. We have just received lots of new goods this week.

In our millinery department, I think the young ladies can show you the greatest variety of hats in North Carolina. Having closed out one of the best Hat Houses in Philadelphia of a large quantity of their lots, we are now selling 79c hats for 48c and 69c hats for 38c and 50c hats for 25c. We have as many hats as you want for 10c each.

We have a handsome line of new Tuscans in flats and shapes; hats that are worth $1.25 for 98c. A grand assortment of flowers that are fresh and new. We are selling them cheap. A great many flowers we are running at 10c each to clean out the different lots, some of them were worth 50c per bunch. We have a great many Roses at 10c per bunch, extra large. A nice line of new fruits, grapes and cherries. A new line of Daisy Wreaths that sold at 50c now 29c.

Ribbons! Ribbons! They are much worn this year—more so than they have been in ten years. On our counters you can see as many as 5,000 rolls Ribbon; nothing but what you can get if you call for it. Our prices are much cheaper than regular stores. In 10c. Ribbons we will sell as good a line as can be sold anywhere for 10c. A big line of Sash Ribbons in Nos. 60, 80 and 100, from 39c. to 60c. yard. New Laces, appliques and allovers; for pretty goods in this line we think we are able to compete with any in quantity, styles and prices. We have allover lace from 20c. up to $3.00 yard; Val. Lace, 10c. doz. up to $1.50 doz.

We have a grand variety of patterns in 25 and 50c. per doz. laces. We have a full line of Embroidery and Insertions, of which you can make a nice selection at popular prices. In Ladies' Muslin Underwear we have an enormous stock, all pretty goods, made with felled seams and double-stitched full sizes. Corset Covers, Night Gowns and Skirts—we can please your taste and your pocket book. Ladies ready to wear skirts—we have received a large shipment this week, one of overskirts and one of underskirts. In top skirts we have them nicely made with corded pleats, which we are running at $1.50 each.

Beautiful black and gray skirts with the new style band pleat we are selling at $2.50, $2.75 and $3. We have a large line for $3, $3.50, $4 and $4.50 each. We manufacture skirts for Ladies who want them made to their measure.

In the Cloth Department, we have just received 5-piece black Piques with extra large cord that we are running at 9c per yard. We have about 1,000 yards fine 10c lawns slightly misprinted in some places, we are running at 6c. Three thousand yards unbleached shirting we are selling at 4c a yard. A splendid line shirtwaist silks at 48c a yard. A fair quality of bleaching in remnants at 5c a yard. A lot of fine cambrics in remnants 2 to 10 yard pieces, assorted qualities up to the best, for 6c a yard. Heavy cottonade pants cloth for 10c a yard. In new Dress Goods we have received a nice line of black goods, also nice Ginghams. You must know we handle everything. You can get everything. You can get everything your memorandum calls for. We punch your cards and give presents free. We do a large business, but we need your assistance. Come to see us when in need of anything in the Dry Goods line.

A CLEAN AND PERFECT LINE OF CIGARS

are the kind you will find here. To secure satisfaction with the public you must have the right kind and quality of Cigars. Good smokes never come from poor quality Tobacco. We sell the right quality, we charge the right prices, and if you buy elsewhere cheap you are not getting the same quality because no one can sell at lower prices than we do, for up-to-date high quality. No bands or premiums to come out of the quality, as it costs money to buy those premiums and they come out of the quality of the article.

Buy "White Knight" Cigars.

You have got the best.
